

# Application to self lay a water main and service connections

Getting a water main for your new development

Water for the North West

This application form should be used if you are a WIRS accredited self lay provider and you wish to provide a new water main and service connections under S51A of the Water Industry Act 1991. If you would like costings from UUW for this work, please complete an "Application for a new water main (requisition)" which is available on request or on our website [unitedutilities.com](http://unitedutilities.com)

For self lay enquiries up to 500 domestic dwellings, we aim to issue a reply within 14 calendar days of receiving your complete application. For larger enquiries, or if we may need additional time to consider your enquiry.

Once completed please return this form, by e-mail to [selflay@uuplc.co.uk](mailto:selflay@uuplc.co.uk), or by post to United Utilities Water, Developer Services, Grasmere House, Lingley Mere, Warrington WA5 3LP. If you need help or assistance please call us on **0345 026 8989**.

Making routine in line mains connections (including initial piece up to UUW branch)	<input type="checkbox"/> by SLP	<input type="checkbox"/> by United Utilities

**Service strips**, we recommend that new water mains are co-ordinated with other utility installations, NJUG guidance sets out the location and depth of water mains relative to other services such as Gas and Electricity. **If you have specific service strips, please include these on your plans.**

### Section 6 Branch connections

When do you require the Source of Water Delivery Date

D	D	M	M	Y	Y	Y	Y
---	---	---	---	---	---	---	---

The date input in the above box should be at least 42 days from the date you submit your application. Dates set out in this application are subject to confirmation in the Water Adoption Agreement once United Utilities have received a signed acceptance and payment for the works due to be undertaken.

Do you have any highways permits in place?  Yes  No

If Yes, please state the permit dates

**Metering Arrangements, please don't forget to include preferred meter locations on your plans**

**For individual dwellings** with 25mm connections our policy is to use a 15mm above ground meter fitted with Automated Meter Reading (AMR). We offer three locations for our meter: internally located in the dwelling, in a wall mounted enclosure attached to the dwelling or within an in-wall enclosure.

**For multi-occupancy domestic properties** with non-standard connections, such as blocks of apartments, we also use above ground Automated Meter Reading (AMR). The meters can be installed internally within each flat, in a lockable cupboard positioned on the ground floor, or in a lockable cupboard on each floor of the building.

**Section 8 Sewer Connections and water reuse**

You will need to apply separately for a sewer connection at [unitedutilities.com/builders-developers/wastewater-services/](http://unitedutilities.com/builders-developers/wastewater-services/)  
You will also need to state your sewerage proposals here, as the information provided may be required by United Utilities to confirm the applicable sewerage billing tariff.

**Section 9 Environmental Incentives**

United Utilities offer environmental incentives for homes built to meet certain criteria. Details of our environmental incentives and how to apply can be found on our website at [unitedutilities.com/builders-developers/guidance/our-charges/new-connections-and-developer-services](http://unitedutilities.com/builders-developers/guidance/our-charges/new-connections-and-developer-services)  
Applications for environmental incentives must be made alongside this application.  
Please tick the below box to confirm you want the development to participate in UU's environmental incentive scheme and that all relevant application information has been provided alongside this application form.  
**By not ticking this box you accept that the development does not want to be eligible for any environmental incentives.**

**Section 10 Water re-use systems**

Will there be any water re-use systems on the site?  
*If yes, please attach details of the proposals and a list of those plots that will use this facility*

Yes  No

**Tip:** We support the use of water saving and water reuse systems, these systems must be correctly designed and installed to ensure that drinking water cannot be contaminated. So that we can be sure that your system will be safe to connect, we will need to understand how the equipment will be connected to the public water supply, together with details such as back flow protection and isolation provisions.
