

# Water pre-development enquiry

## Getting water for your new development initial planning stage

This enquiry is intended to be used when you are at initial planning stage. If you are at detailed planning stage and your development is ready for new water supplies then please submit either a requisition or self lay application.

We publish a booklet “**Obtaining water supplies for new developments - Guidance notes for developers**”, which is available on our website [unitedutilities.com](http://unitedutilities.com) or by request from **0345 072 6067**, which will help you decide which option is best suited to your needs.

If your enquiry is for a development of up to 500 domestic dwellings we aim to provide a reply within 21 calendar days of receiving your completed application. For larger enquiries and those with non-domestic water demand, we may need additional time to consider your enquiry. If this happens, we will contact you within 14 calendar days with an alternative reply date.

Once completed please return this form, by e-mail to [watermains@uuplc.co.uk](mailto:watermains@uuplc.co.uk), by fax to **01925 677973** or by post to United Utilities Water, Developer Services, Windermere House, Lingley Mere, Warrington WA5 3LP. If you need help or assistance please call us on **0345 072 6067**.
